## Puppy Purchase Agreement and Health Guarantee

Ramblin Ridge Aussies guarantees your puppy to be of excellent health with the following health care provided:

- Regular puppy-appropriate de-wormings
- Puppy vaccinations starting at 6 weeks and at recommended intervals until time of sale

Your puppy is guaranteed to not have any congenital life-threatening health defects for 2 years. Your Veterinarian must examine your puppy within 3 business days after taking possession for this guarantee to be honored.

- If any health problems are determined, I must be contacted immediately and with written diagnosis, I will then have the puppy examined and consult with your Veterinarian. If it is determined there is a problem directly attributed to me or the breeding, you may return the puppy for a full refund or replacement. I will not compensate for any treatment of said illness prior to my knowledge or consent. We do not compensate for internal or external parasite treatment as this is a part of life-long prevention measures.

The listed health guarantee is also contingent on the following:

- Puppy is examined by a licensed Veterinarian within 3 business days following possession.
- Recommended vaccination regimen of licensed Veterinarian.
- Exam and prevention measures for intestinal worms, Heartworms, and other parasites.
- Your puppy is protected with proper shelter from the elements
- Your puppy is fed high quality food and fresh water daily.
- Daily play and socialization. Obedience training is highly recommended.
- Spay/Neuter (if applicable) is required by 18 months of age.
